UTB ORGANOGRAM
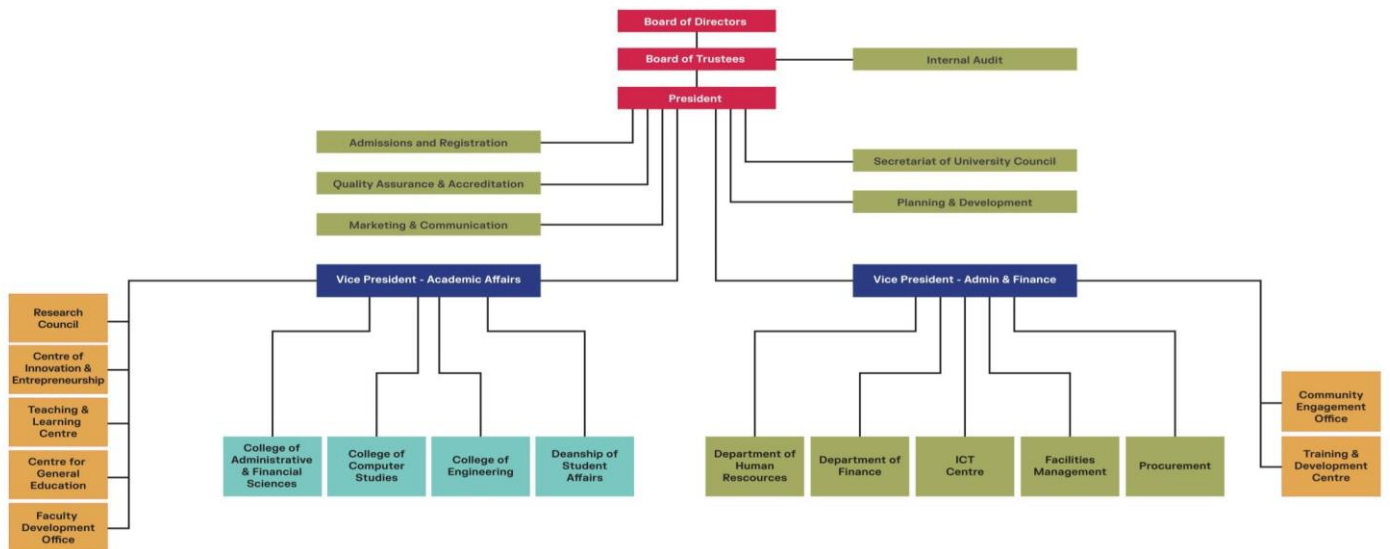

INTRODUCTION

University of Technology Bahrain (UTB) regularly conducts various surveys to improve the quality of its services in line with the attainment of the vision and mission statements of the University and to set the direction of the university programs towards total quality satisfying its stakeholders.

The surveys address both internal and external environment concerns. The internal environment situation is sourced from the students and the employees of the University. In contrast, the external environment situation is derived from graduates and alumni of different colleges.

The information gathered from the surveys is a vital input for the university's short- and long-term plans to provide quality education and services. Improvements of these plans result from the surveys, whereas the corresponding implementation of the programs is monitored by the surveys that are part of the monitoring process.

This manual is designed to guide the conduct, analysis, and reporting of the surveys, uniformity of the forms used, and regularity of survey schedules. Thus, the manual will have the following objectives:

1. Provide a clear understanding of the various surveys conducted in UTB.
2. Establish guidance as to the procedures and operational structure of the different surveys.
3. Provide a framework for the conduct and management of surveys.

UTB SURVEYS

The surveys being conducted in UTB address both internal and external environment concerns. The internal environment situation is sourced from the students and the employees of the University. In contrast, the external environment situation is derived from the employers of university graduates and the alumni of the different colleges and Work- Based Learning (WBL) employers of practicum students. The University acknowledges the importance of evidence-based decisions through the collection and analysis of survey data. The results of the surveys play a significant role in the attainment of the University's Vision. UTB currently administers the following surveys as part of the survey cycle:

MAIN INSTITUTIONAL RESEARCH

Student Satisfaction Survey – The UTB Student Satisfaction Survey is an annual survey conducted as a continual initiative of acquiring feedback from the students at different colleges of the University. Recognizing the students' level of satisfaction based on their experiences in terms of academic support, curriculum and instruction, facilities, educational infrastructure, policies, and procedures is significant in promoting a student-friendly learning environment.

Faculty Satisfaction Survey- The UTB Faculty Satisfaction Survey is an ongoing effort to obtain feedback from the faculty member regarding satisfaction on University Vision- Mission and Direction, Empowerment, Leadership, Salary and Fringe Benefits, Employee Development, Facilities, and Infrastructures, and Policies and Procedures. The effort provides the University with inputs for the formulation of the comprehensive employee development program and other development initiatives of the university.

Administrative Staff Satisfaction Survey – Like the Faculty satisfaction survey, the Administrative Staff Satisfaction Survey aims to gather feedback regarding University Vision- Mission and Direction, Empowerment, Leadership, Salary and Fringe Benefits, Employee Development, Facilities, and Facilities and Facilities Infrastructures and Policies and Procedures.

Student Exit Survey–The UTB Senior Exit Survey is focused on determining how the PILOs/SOs is attained. Before finally leaving the university, graduating students are asked how their educational experience has contributed to achieving the PILOs/SOs. The University must know the extent of their educational experiences in transforming the students based on the identified learning outcomes of the different programmes. The survey results form part of the continuous quality improvement initiatives of the university in the delivery of its services towards the attainment of vision, mission, values, and goals (VMVG) and knowledge of university structure and the University's role in the development of the society.

Alumni Survey: Graduate Destination is used to trace graduates' most recent graduates of their current professional status and employability. The survey outcome is also an integral concern in the university's initiatives to address society's need to produce responsible professionals and individuals.

Alumni Survey: Beyond Graduation - The Beyond Graduation Survey (BGS) is a three-year follow-up to the graduate destination survey. Results of the study determine the importance of higher education qualification in the lives of the graduates three years after graduation through the assessment of the attainment of the programme educational outcomes (PEO). The study also assesses the employment mobility of the subject cohort.

Employer Survey - The UTB Employer Survey is one way of assessing the PEOs and centered on the performance of UTB graduates as evaluated by their respective employers. The survey includes the employer's evaluation on the quality of work and productivity, work attitude, commitment, and compliance to company rules of the University graduates. The survey result is essential in improving the quality of instruction in the University that would address the current market needs.

Satisfaction on Library Facilities – The survey aims to assess both the level of satisfaction and the importance of the services and facilities provided by the university library as perceived by the students. The survey result is essential in improving the quality of the benefit of the university office.

Satisfaction Survey on ICT - The survey aims to assess both the level of satisfaction and the importance of the services and facilities provided by the University ICT Center as perceived by the students. The survey result is essential in improving the quality of the benefit of the university office.

Work-Based Learning (WBL) Employer - The University ensures effective implementation of Work-Based Learning (WBL)/Practicum/On-the-Job Training (OJT) following processes and procedures, meaningful placements, and employment. WBL employers evaluate the pre- internship orientation/activities by the practicum adviser, WBL employer's experiences on the practicum students, and WBL student's employability skills. The information derived from this survey shall form part of UTB's plans and continuous quality improvement effort on industry immersion

Work-Based Learning (WBL) Students – The students' overall experience in the Work-Based Learning (WBL)/Practicum/On-the-Job Training (OJT) is also assessed using the WBL survey for the student. The survey covers assessment areas in terms of following processes and procedures, meaningful placements, and employment.

Annual Evaluation of College Dean by Faculty–The evaluation is conducted to assess the college Dean's performance regarding the following aspects: Leadership, Administration and Management, Curriculum Related Matters, Communication, Fairness and Ethics, Student Affairs, and University and Community Services.

Annual Evaluation of Programme Head by Faculty - The evaluation is conducted to assess the college Dean's performance regarding the following aspects: Leadership, Administration and Management, Curriculum Related Matters, Communication, Fairness and Ethics, Student Affairs, and University and Community Services.

Management Performance Appraisal (Non-Academic Officers) – Conducted to evaluate non-academic head offices officers' performance regarding management and leadership practices and achievement of KPIs.

OTHER RESEARCH

Effectiveness of Remedial Course – aims to assess the efficacy of the university intervention in preparing admitted students to college-level Math and English courses of tutoring struggling readers in both an individualized and small group setting.

Effectiveness of Admission Policy–aims to evaluate how effective the current university policies about the university's mechanisms in determining the readiness of admitted students to college-level courses.

Report on Students-at-Risk–provide the regular information of students identified as "at- risk" based on the university policy manual. The results of the study serve as valuable input in designing interventions to improve chances of student completion.

Report on Retention and Progression–Reports key data and information regarding retention and progression statistics in each Programme necessary for programme review and program interventions.

Thesis/Capstone Satisfaction Survey–Assess the level of satisfaction of both undergraduate and graduate students on various aspects of the student's thesis/capstone experience in their respective programmes.

The institutional research matrix in table 1 details each survey in terms of survey assessment/evaluation area, data gathering time frame, and reporting schedules.

UTB SURVEY FRAMEWORK AND PROCESSES

A survey framework for managing the conduct of surveys addresses the following, as shown in Figure 1 below:

- surveying of critical stakeholders such as students, staff, alumni, and employers
- access to stakeholders' population
- conduct of surveys
- data generated from surveys and its analysis, reporting, verification, endorsement, and approval
- dissemination of survey results

Figure 1. The UTB Survey Framework

Student Survey Framework and Processes

The student survey framework and related processes provide a managed and coordinated approach to institutional-wide surveys. The Student Survey Framework and Processes have the following main objectives:

- To coordinate and manage effectively university-wide survey.

- To ensure that all students across all colleges/centers and modes of delivery have the opportunity to provide feedback on their experiences at UTB.
- To report survey findings to Academic and University Council to inform, and provide an evidence base for, an enhancement to learning, teaching, curricular offerings, services, systems and procedures, academic and social experiences, and the broader student experience.
- To ensure the efficiency of the survey processes and to minimize survey fatigue among students by keeping under review the number and scope of institutional level surveys; and
- To ensure that actions taken as results of the surveys are communicated to students as part of closing the loop on student feedback.

The Student Survey framework applies to all student surveys that target the whole UTB student population or a random sample of the entire UTB cohort.

Purpose of the Student Survey Framework

This Survey Framework has been formulated to ensure that surveys conducted in the name of UTB:

- Are within the acceptable level;
- Do not compromise population samples through the overlap of surveys; and
- Are disseminated and utilized appropriately.

Definition of Terms

For this document, the following are defined:

Survey	A formal set of structured questions that require recorded responses from an individual
Student Survey Framework	Is a guide on student-related surveys to gather feedback and collective data on various aspects of academic and social services in the university.
Student Survey Processes	Are series of steps, actions, and decisions to achieve a particular outcome.
Students	Refer to UTB student respondents of surveys across colleges at the time of conduct of surveys
University	Refers to UTB
Response Rate	Also known as completion rate or return rate, is the number of people who responded to the survey over the number of people who were invited to complete the study, expressed as a percentage
Survey Register	Is the formal record cataloging approved institutional surveys

<u>Surveys within Scope of this Framework</u>

Surveys within the scope of this framework include university-wide student surveys, which were reflected in Table 1 (Institutional research matrix).

<u>Surveys outside the Scope of this Framework</u>

The following surveys are exempt from review under this framework:

- Surveys were undertaken by academic staff for academic research purposes unless the surveyed activities cover a significant proportion of the student population;
- Surveys conducted by individual academic staff with students enrolled in their courses (Student Evaluation of Teaching and Learning using Moodle, Course Evaluation and Teaching Survey); and PILO/SO Evaluation, as part of learning and teaching quality assurance processes; and
- Simple feedback surveys intended for quality assurance (QA Survey) and improvement of administrative procedures (TNA); and evaluation of academic staff (Teacher's Behavior Inventory (TBI), and Students Evaluation of Tutor (SET).

<u>Management of Student Surveys</u>

The Institutional Research Office (IRO) under the Planning and Development Department (PDD) office manages the student surveys. The collection, tallying, analysis, and report writing are conducted by the IRO coordinator. The assistance of support from offices and other university members may be sought for in the administration, retrieval, and completion of the survey. Specifically, the Guidance Office, through its Head who obtains the instruments from the different colleges and coordinates with the IRO in floating and retrieval of the Senior Exit Surveys, and the Colleges through the Deans in assisting the IRO in the online administration of the Student Satisfaction Survey.

In managing the survey framework, PDD-IRO responsibilities include:

- Agreeing and managing the schedule of student surveys;
- Ensuring all bona fide UTB students have opportunities to participate in the student surveys; and
- Ensuring that survey results are reported to the appropriate university officials and stakeholders.
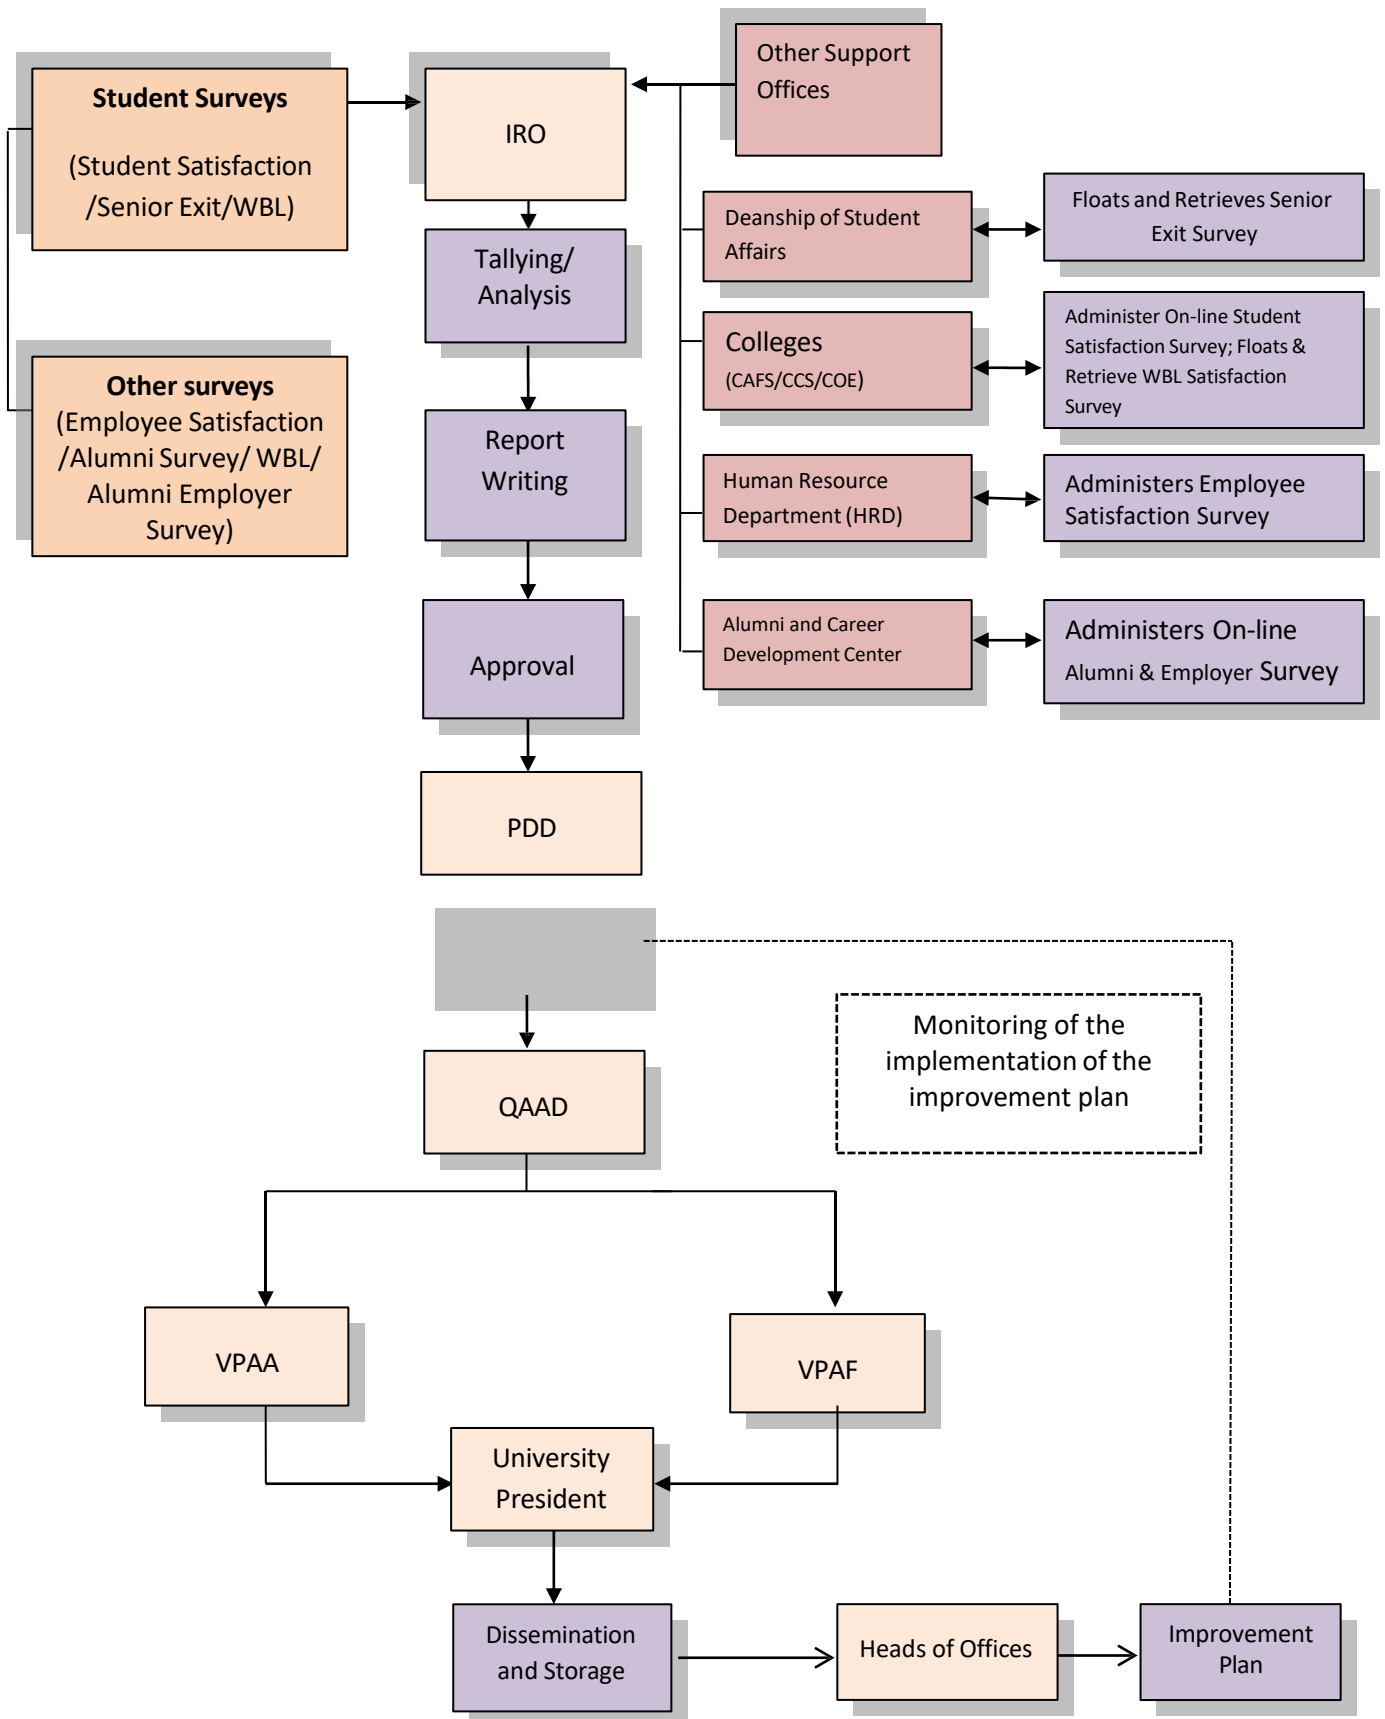

Figure 2. Institutional Survey Management Framework

ANALYSIS AND DISSEMINATION OF SURVEY RESULTS

Access to University Student Population

Access to populations requires approval from the responsible university officer:

- Access to data on student population requires the approval of the Head of Administration/VPAA; requested from the Head of Information Communication and Technology (ICT) or Head of Registration or Head of Admission; access to data on alumni populations requires the approval of Head of VPAA and requested from Alumni and Career Development Center.
- PDD-IRO has the responsibility to ensure that sufficient request/notice is given to data providers for extraction of the required students' data

Analysis of Surveys

Approved surveys within the framework are administered by the concerned offices/department in coordination with the IRO. Once the accomplished questionnaires are retrieved, the IRO tallies and analyze the data. The satisfaction rates are determined by calculating the positive response rate. This is done by adding the count of "satisfied" and dividing it by the total of the "satisfied" and "dissatisfied."

Approval of Survey Results

After the IRO has analyzed the results and produced the initial draft of the report, the document will be reviewed and endorsed by the Head of Planning and Development to the Director of Quality Assurance and Accreditation for the validation of the results. After validation, the QAAD then endorses the report to Vice President for Administration (all administrative relative surveys) and Vice President for Academic Affairs (all academic- related surveys) for approval. These surveys will then be subject to final approval by the University President.

Dissemination of Survey Results

The PDD communicates the Survey Results to all the Stakeholders. The storage of the reports will be the primary duty of the IRO. The stakeholders include the employees, students, alumni, employers, Programme Industry Advisory Panel (PIAP), and external examiners. The results are disseminated through meetings, orientation, and general assembly. They are also posted on bulletin boards, and made available in the University website.

Integration of Results

The results of the surveys are finalized and submitted to the concerned college for analysis as well as the Planning and Development Office for the integration to other reports. The Head of the Alumni and Career Development Center and the Guidance Office submits the

survey results to the specific committee through the Deans of the College. The Alumni Survey Results and the Employer Survey Results are forwarded to the Faculty Committee for the PEO Assessment and Evaluation. The results of the Senior Exit Survey go to the Faculty Committee for the PILO/ SO Assessment and Evaluation. On the other hand, the Student Satisfaction Survey results directly to the Dean to develop the Improvement Plan.

On the other hand, the Head of the Human Resource Department is the one who analyzes and interprets the results of the Employee Satisfaction Survey and eventually comes up with an Improvement Plan to address the effects. For the Student Satisfaction Survey, the college analyzes the results and develops an Improvement Plan. The improvement plan is then discussed and finalized with the head of the Planning and Development office before presentation either the Vice President for Academic Affairs or Head of Administration.

The results of the surveys are utilized for continuous improvement. The weaknesses identified in the surveys are addressed through the improvement plan prepared by the concerned office. The developed improvement plans are implemented in the respective offices and monitored by the PDD. Any improvement is reported to all stakeholders through meetings, general assembly, and newsletter.

Storage and Reports Cataloguing

The Institutional Research Office is in charge of assuring that the final reports of the surveys are appropriately stored and cataloged. Therefore, any request to the institutional research office to access the final reports or excerpts will require approval from either the Vice President for Academic Affairs and the Vice President for Administration and Finance through the Planning and Development Office.

Responsibilities

The Institutional Research under the Office of the Planning and Development oversees the conduct of all surveys. All academic-related surveys, including Student Satisfaction Surveys, Senior Exit Survey, Alumni Survey, Employer Survey, are coordinated with the Office of the Vice President for Academics. In contrast, the Employee Satisfaction Survey is coordinated with the Human Resources Department under the Vice President of Administration and Finance Office. In addition, there are offices tasked with the administration and retrieval of the surveys. Finally, the assistance of support offices and members of the University may be requested to complete the surveys. These are cited in the paragraphs that follow:

Alumni and Career Development Center (ACDC) is responsible for the online administration and retrieval of the Alumni and Employer Surveys. The PLAO Head collates the results and submits them to the IRO.

Human Resource Department (HRD) is in charge of conducting the employee satisfaction survey. The Head of the HRD forwards the retrieved questionnaire to the IRO.

Deanship of Student Affairs is responsible for the floating and retrieval of the Senior Exit surveys. The Head of the Counselling and Support Unit obtains the survey instruments from the respective colleges. The Dean of Student Affairs submits the retrieved questionnaires to the IRO.

In coordination with the faculty members, colleges through the Deans are responsible for the online administration of the Student Satisfaction Surveys.

Vice President for Academic Affairs (VPAA) verifies and endorses academic-related survey reports to the University President for approval.

Vice President for Administration and Finance (VPAF) verifies and endorses non-academic- related survey reports to the University President for approval.

University President approves all the completed survey reports submitted to VPAA and VPAF to disseminate results to the various stakeholders.

SURVEY INSTRUMENTS PREPARATIONS AND REVISIONS

All UTB surveys within the framework (Student Satisfaction, Senior Exit Survey, WBL Student Survey, Alumni and Alumni/WBL Employer Surveys) are prepared by the colleges/department in coordination with the PDD-IRO and the Quality Assurance Department (QAAD). The survey questionnaires are forwarded to the Vice President for Academic Affairs for approval and presentation to the Academic Council. In addition, the Student Satisfaction Survey questionnaire is sent to the IRO for online tagging in Moodle in coordination with the Information Communication Technology Services Department.

Likewise, the Alumni and Employer Survey Questionnaires are submitted to the PLAO for online tagging. When revisions are necessary, the college communicates these to the concerned offices and provides the revised versions of the questionnaires. The HRD, on the other hand, is responsible for the preparation of the Employee Survey questionnaire in coordination with the QAAD and IRO and approval of the Vice President for Administration and Finance (VPAF) and presentation to the Administrative Council. Figures 3 and 4 present the framework in preparing the student survey instruments and other surveys within the framework. In contrast, figures 5 and 6 demonstrate revising the tools considering the several identified triggers.

Review Cycles

The review and updating of the survey instruments are done regularly depending on the type of survey being administered. For example, for Programme surveys (Alumni Survey, Student Exit Survey, etc.), the review of instruments will follow the Programme review cycle. Other surveys are evaluated and reviewed every five years unless major triggers like HEC and QA, department, and other significant stakeholders' recommendations. In addition, the IRO conducts an annual split-half reliability test to assess the effectiveness of the survey in terms of the extent to which the questions in the survey all measure the same identified construct. A Cronbach alpha value of 0.7 is considered a threshold for assessing internal consistency.

STUDENT SATISFACTION SURVEY FOR
UNDERGRADUATE STUDENTS
(NON-ONLINE)

Dear Student,

In our aim to provide the highest quality of education and services to our constituents, University of Technology Bahrain (UTB) continuously implements measures to improve its curricular offerings, services, systems and procedures. In this regard, we would like to solicit your inputs pertaining to your academic and social experience in the University. The information gathered from this survey will be used as basis for future plans and shall form part of our continuous quality improvement efforts.

Thank you.
